

innovi Updates February 2021

Dear innovi User,

Here are innovi's latest feature updates:

- 1 Case Management for investigation results
- 2 Bulk addition of cameras to Edge
- 3 Change default rule area
- 4 Script for backup database on customer's side
- 5 Add unattended object flag to the sensor

Bug fixes:

- 6 Health Event data not displaying
- 7 Portal: wrong display in the physical tree after switching account
- 8 Calendar event name is not saved
