

innoVi Product Update

16-June-2022

innoVi – Milestone integration

A snapshot of events sent to Milestone

innoVi is now adding an alarm snapshot to the Milestone alarm event. The user will be able to get the overview of an alarm event without a need to access the event video. More information about this new functionality can be found in chapter 12 in the latest version of [innoVi – Milestone XProtect Integration Guide](#).

The screenshot displays the Milestone XProtect Smart Client interface. The top navigation bar includes 'Live', 'Playback', 'Exports', 'Search', 'Alarm Manager', 'innoVi', and 'System Monitor'. The main area is split into a map view (showing 'No map has been selected') and a video view (showing a PTZ dome camera feed with a green bounding box around a vehicle). Below the video is a timeline with a play button and a timestamp of 1:31:02.032 AM. At the bottom, there is a table of alarms with the following columns: Time, Priority Level, State Level, State Name, Message, Source, Owner, and ID.

Time	Priority Level	State Level	State Name	Message	Source	Owner	ID
1:35:10 AM 3/15/2022	1	1	New	innoVi Event	AXIS Q6115-E PTZ Dome Network Camera (192.168.90.7) - Camera 1		941
1:35:10 AM 3/15/2022	1	1	New	innoVi Event	AXIS Q6115-E PTZ Dome Network Camera (192.168.90.7) - Camera 1		942
1:34:29 AM 3/15/2022	1	1	New	innoVi Event	AXIS P1375 Network Camera (192.168.91.10) - Camera 1		939
1:34:29 AM 3/15/2022	1	1	New	innoVi Event	AXIS P1375 Network Camera (192.168.91.10) - Camera 1		940
1:34:25 AM 3/15/2022	1	1	New	innoVi Event	AXIS Q6115-E PTZ Dome Network Camera (192.168.90.7) - Camera 1		937

User defined health events

The new feature provides functionality for receiving specific innoVi health events in the Milestone system. An event can be received as a generic health event type or it can be configured so that it corresponds to a certain user preference. Instructions for the configuration of the health events can be found in chapter 11 in the latest version of [innoVi – Milestone XProtect Integration Guide](#).
